

WORK SCOPES

All permit applications require customers to answer questions about the scope of work they are applying for.

Work Scope	Description
Above Ground Fuel Tank	means a storage tank, any portion of which is above grade and containing gasoline, diesel fuel, or propane for retail sale.
Commercial Parking Lot	means an area of a site used for the parking of motor vehicles and which is available for public or private use for compensation.
Parking Station	means a site used for the parking of private passenger vehicles when such parking is ancillary to a permitted principal use located on an adjacent or nearby site.
Storage Yard	Means a site where equipment, materials or goods are stored but does not include junk or salvage storage.
Junk and Salvage Yard	Means uses involved in salvaging, storing or selling scrap metal, paper, plastic, glass, wood and other waster material, as well as unlicensed vehicles and used vehicles parts.
Site Alteration	Means any physical changes to a site which impact development standards under the Zoning Bylaw . This may include, but is not limited to, alterations to, removal of or expansions to required landscaping or parking facilities.
Site Plan Control - Mixed Use - Commercial - Industrial - Shopping Centre	Select the appropriate classification based on the primary form of development. Sites containing multiple principal commercial buildings are classified as a Shopping Centre.

If the scope of work includes the construction of a building, please visit saskatoon.ca/buildingpermits

This list has been provided for the purposes of guidance through the ePermitting system. For details and formal definitions:

- With respect to buildings, see the National Building Code of Canada
- With respect to land use, please see the City of Saskatoon Zoning Bylaw.
