Details about this program:

In 2024, the City of Saskatoon is changing how residential curbside waste services are funded. To help the transition from a property tax-based model to a user fee-based utility, a \$100 per year subsidy is available for eligible low-income households beginning in 2024. The Waste Utility Subsidy will be available annually until the end of 2026 and applies to eligible households receiving cart-based waste services (black, blue and green carts) whom have a City utility account in their name. Households will need to re-apply every year to receive the subsidy.
