

**Revisions to Standard Construction Specifications & Drawings
Effective April 12, 2024**

City of Saskatoon Notification:

The following standard construction specifications and drawings have been added, revised or withdrawn as described.

To access the current specifications and drawings, please visit the City of Saskatoon specifications and standards website:

<https://www.saskatoon.ca/business-development/development-regulation/specifications-standards>

SPECIFICATION CHANGES

Bold Text within a specification on the website indicates a change.

Division 08 – Water and Sewer**08025 – Water and Sewer Connections Construction**

- Change wording from “minimum excavation size” to “minimum inner dimensions of trench-box/cage” in subsection 5.3.6.
- Added wording in subsection 8.1 to allow contractors to perform water tapping up to 25mm (1”) with appropriate water and sewer license as per changes to Bylaw 8880.
- Added further clarification for connection fittings where pipe installation is to Profile PVC Pipe in subsection 8.3.
- Added wording in subsection 10 to reflect Bylaw 8880 changes as highlighted in subsection 8.1. Contractors performing their own tapping must have a City Inspector onsite prior to the tapping.

Division 04 – Asphaltic Materials**04010 – Asphalt Mix**

- Added new subsection 2.5 Durable Pavement material under section 2 materials.

Division 15 – Construction Materials**15004 – Construction Materials – Sewer Service Connections**

- Added new product, 2.4 PVC Coupler with Rubber Sleeve and Stainless Steel Band (Inserta Tee), subsection 2.4.

15006 – Construction Materials – Roadways

- Added new product, Durable Pavement, subsection 1.2.
